

 **ARTISAN**  
INDUSTRIES INC.

# ROTARY VALVES

the smarter valve solution  
for continuous separations

# YOUR NEW ROTARY SWITCHING SOLUTION FOR CONTINUOUS PRODUCTION

**Built for high throughput Simulated Moving Bed (SMB) systems in:**

- Binary separations for Active Pharmaceutical Ingredients (APIs)
- Isolation of chiral compounds
- Protein purification and biomolecule separations
- Solvent-based separations in fine chemical

**Artisan's Rotary Valve replaces the need for complex manifolds and up to 80 individual isolation valves.**

## PRODUCT FEATURES

-  **Design:** Precision multi-port indexing rotary valve
-  **Port Configuration:** Customizable up to 24 ports
-  **Flow Path Switching:** Continuous, synchronized indexing

## WHY CHOOSE ARTISAN ROTARY VALVES?

- ✓ Replaces complex valve network Ideal for 24/7 operation
- ✓ Over 60 years of use in mission-critical systems world-wide
- ✓ Designed for decades of reliable service
- ✓ Tailored port count, materials, and configurations
- ✓ Fewer failure points than valve arrays
- ✓ Saves space versus traditional valve setups
