ARTISAN INDUSTRIES INC.

ARTISAN VACUUM PRODUCTS

Who We Are

Artisan Industries Inc. is a U.S.-based engineering and manufacturing company founded in 1934. With deep technical expertise, we specialize in custom-engineered process solutions for critical industrial applications.

The JET-VAC and Unique Systems legacy brands—both trusted names in vacuum system engineering—are now unified as the Artisan Process Vacuum Products Division.

JET-VAC TECHNOLOGIES

UNIQUE SYSTEMS

Legacy Brands. One Central Resource.

Through decades of proven performance, JET-VAC® and Unique Systems® built reputations for reliable, high-performance vacuum technology. With their full integration into Artisan, customers now benefit from:

- A single point of contact for parts, support, and engineering
- Access to complete historical technical records
- Support for legacy systems
- Custom-designed new systems and upgrades
- OEM replacement parts—fast and accurate

All fabrication, engineering, and documentation are now managed through the **Artisan Process Vacuum Products Division.**

Capabilities & Solutions

We engineer and support a full range of vacuum technologies:

- Steam Jet Ejectors & Thermocompressors
- Liquid Ring Vacuum Pumps & Hybrid Systems
- Surface & Barometric Condensers
- Deaeration & Defoaming Packages
- Turnkey Skid Systems
- OEM Replacement Parts & Documentation
- System Troubleshooting & Upgrades

Industries We Serve

We engineer and support a full range of vacuum technologies:

- Chemical Processing
- Food & Beverage
- Pharmaceutical & Biotech
- Edible Oils & Fats
- Power Generation
- Petrochemical
- Waste Treatment & Recovery
